The performance figures represent past performance of the fund. Past performance is not a reliable indicator of future performance. Fund performance figures shown are calculated after fund management fees and expenses, and assume reinvestment of distributions. Unless otherwise stated, performance figures are in Australian dollars and performance for periods greater than one year is annualised. Performance is calculated to the last business day of the month. Investment return and principal value of an investment will fluctuate so that an investor's units, when sold or redeemed, may be worth more or less than the original cost. Current performance may be higher or lower than the performance shown. An iShares ETF is not actively managed. You cannot invest directly in an index. See Additional Information note 3.
